

TECHNICAL SPECIFICATIONS

**GOTHIA STEEL
SHELVING SYSTEM**

Gothia Steel shelving system

The ends of Gothia steel shelving can be either open, or closed with end panels. These are attached to the final frame of rows of shelving.

Gothia steel is a flexible shelving system. The ends can be left open, or they can be equipped with end panels made of frosted glass, punched steel or perforated wood. Attached onto the outsides of the steel frames, Gothia steel can be decorated with solid wood strips, which can be coordinated with existing wood in the library. Another available option is to put extended foot fixtures at the bottom of the steel frames.

The shelving system comes in four heights, three bay widths and six depths. The system consists of starter and add-on bays. The upright frames are made of 40x25 mm steel tubes. The tubes have slots for attachment of the brackets, which are the same in both Gothia Steel, Gothia Wood and Opal shelving systems. The shelves are made of steel as standard, but wood shelves may also be used. The shelves are adjustable in 25 mm increments. Steel parts can be lacquered in any of our standard colours. Wood parts come in beech or birch as standard.

End panels made of glass

End panels made of steel

Gothia Steel shelving system

HEIGHTS

The frames come in four heights; 122, 152, 182 and 212 cm.

Heights include adjustable feet (3 cm).

DEPTHS

The frames come in six depths;

29 cm for 25 cm deep shelves,

34 cm for 30 cm deep shelves,

44 cm for 40 cm deep shelves,

53 cm for 2x25 cm deep shelves,

63 cm for 2x30 cm deep shelves,

83 cm for 2x40 cm deep shelves.

Wood strips and/or extended foot fixtures add 4 cm on single-sided and 8 cm on double-sided bays.

Upright panel depth

Steel shelf depth

WIDTHS

The shelves come in three widths; 75, 90 and 100 cm.

The frames are 2.5 cm wide.

Gothia double-sided bays.

Frame depth 63 cm, shelf depth 30 cm.

Complete units with frames, steel shelves, sway-brace and fittings. Heights include adjustable feet (3 cm). Prices do not include wood strips, extended foot fixtures or wheels.

Prices for these items are listed on page 10.

426390

Magazine storage shelf with three tip-up doors.

For module d. 30 cm. Dim. 40x40x90 cm. NB: shelf protrudes 10 cm.
For module d. 40 cm. Dim. 40x40x90 cm.

426321

426320

Magazine storage shelf with three dividers.

For module d. 30 cm. Dim. 40x40x90 cm. NB: shelf protrudes 10 cm.
For module d. 40 cm. Dim. 40x40x90 cm.

426394

426393

Shelf with three dividers.

Dim. 20x30x90 cm.

426730

Browsers.

Single, dim. 10x30x90 cm for module d. 30 cm, without dividers.

428351

Single, dim. 20x40x90 cm for module d. 30 cm, without dividers.

428352

NB: shelf protrudes 10 cm.

Single, dim. 20x40x90 cm for module d. 40 cm, without dividers.

428354

Double, dim. 20x40x90 cm for module d. 30 cm, without dividers.

428353

NB: shelf protrudes 10 cm.

Double, dim. 20x40x90 cm for module d. 40 cm, without dividers.

428355

Divider for single browser 10x30x90 cm

308353

Divider for single browser 20x40x90 cm

308354

Divider for double browser 20x40x90 cm

| Bracket for top shelf d. 40 cm, left | 584002 |
| Bracket for top shelf d. 40 cm, right | 584003 |

Eyeline lighting system.

The Eyeline light is built on the HF technique with a T5 fluorescent tube in combination with an electric device which gives flicker-free light and reduces waste power with 20%. Eyeline has been approved according to EU standards by Intertek SEMKO.

The light fixtures can be attached by side brackets or top brackets.

Fluorescent tubes are included in the item numbers below.

Eyeline comes in two colours as standard; Champagne Mist

Other colours can be offered at request.
