Function and design!

The Box browser is a functional and uncomplicated browser that presents and stores the books nicely.

The browser is available in 2 models: a low model - Box 1 and a high model - Box 2.

Box 1

H54 x W72 x D72 cm + castors Ø8 cm

Box 2

H90 x W72 x D72 cm + castors Ø8 cm

The lower part of Box 1 consists of four compartments – two on each side of the browser. Box 2 has eight compartments – four on each side of the browser.

The top part of both browsers consists of 4 compartments. Loose steel dividers can be ordered separately so each compartment can be divided into 4 smaller compartments.

The browser is made of lacquered MDF. A rubber mat is placed in each top compartment to ensure that even a small number of books will stay upright. As standard, the browser is delivered in white, but can also be manufactured in special colour finishes at a surcharge. The browser is delivered assembled – ready to use.
