

Basics children's shelf

Design: Eurobib

Basics children's shelf

Basics children's shelf is a flexible shelf system for displaying and storing children's books. Design your own custom children's corner for your youngest visitors. The options are many. Choose among the different starter and add-on sections to suit your needs. We make it easy for you to create a pleasant, functional environment for children – it doesn't get any easier!

Basics children's shelf is an open single- or double-sided shelf system. The shelves can be combined in sections and are available with either level or tilted metal shelves. A diagonal steel brace guarantees the stability of the bookcase.

Size:
 End panels available in two heights: 872 mm and 1224 mm. Each end panel has adjustable feet, which add 18 mm.
 End panel depth, single-sided: 329 mm. End panel depth, double-sided: 620 mm.
 Shelf width: 866 mm.
 Shelf depth: 273 mm.

The shelf can be positioned with a height interval of 32 mm.

Material: End panels are made of 28 mm thick stained solid beech. Shelves in varnished metal
 Colour: End panels come in blue, red, green, and yellow, and the shelves are available in white.

Other: End panels are delivered in mixed colours (the customer may not select colours).

Package unit: Complete packages containing end panel, periodical shelves, diagonal brace, assembly fittings, and stationary feet.
