

Inform & Present

In our previous catalogue we told you that good communication requires more than good language. That's still true. To add support to words and images, we now present a new collection of aids for conferences, meetings and seminars. The name of the collection from Abstracta is short and sweet – Ono. You'll also find other exciting new arrivals such as display systems and presentation stands from Schulz Speyer.

A complete exhibition in less than an hour!

Three-pack screens & Three-pack screens with castors

Three-pack screens are available pre-assembled with 6 slanted clips; only the legs have to be attached. Panels are covered in natural-coloured hessian or light grey Velcro. Panels on existing screens can be replaced with new panels. Total 6.3 m² display area. Visible panel surface: 881 x 1188 mm.

Three-pack screen with castors is essentially the same as the three-pack screens, but the external screens are 100 mm. narrower in order for the screens to be able to fold up completely. Visible panel measurement on external screens: 788 x 1188 mm. Slanted clips are replaced with 360° tilting hinges. The screens are delivered in heavy multiple-use packaging.

Material Stand in natural anodized aluminium profile; 25 x 25 mm. Held together by black plastic integrated joints. Panel consists of 16 mm. porous fiberboard covered on both sides with hessian or Velcro.
